Steps for Submitting Manuscripts

Step 1: Create an account for correspondence. Please open the F6Publishing page (<https://www.f6publishing.com/Forms/Main/Login.aspx>), click the 'Corresponding Author Register', and provide the Personal Information and Institution Related Information for the corresponding author. When the complete information has been typed in, please click the Submit button, and the system will automatically send you a user name and password *via* E-mail.

Note: All authors' ORCID numbers need to be submitted when creating an account for correspondence. To obtain an ORCID number, please visit: <https://orcid.org/>.

Step 2: Login to F6Publishing. After the corresponding author receives the user name and password, please login to F6Publishing by clicking 'Author Login'. After login, click 'Start New Submission' and find the Manuscript General Information zone, in which the corresponding author should fill in the information for the fields of Journal, Manuscript Title, Country of Manuscript Source, Manuscript Source, Invited Manuscript ID, Funding Agency and Grant Number, Manuscript Scope, Specialty, Manuscript Type, Abstract, Keywords, Core Tip and Cover Letter. After information in all fields is completed, click either 'Save & Continue' or 'Skip & Continue'. If you want to modify the information at this step, please click 'Go Back'.

Step 3: All author list. The corresponding author submits the information for all authors in an order based on their contributions to the manuscript. Co-first authors and co-corresponding authors are not allowed. Personal Information and Institution Related Information should be submitted for each author. The corresponding author should ensure that all information provided for the Institution Related Information and Correspondence To fields is correct.

Note: Please check the box in front of 'Is Corresponding Author' to confirm and formally attest to the corresponding author status for the person providing the information.

Step 4: Upload manuscript and relevant files. First, for all manuscripts involving human studies and/or animal experiments, author(s) must submit the related formal ethics documents that were reviewed and approved by their local ethical review committee. This is mandatory and is one of the determining factors for whether or not the manuscript will be sent for peer review. If human and animal studies received waiver of the approval requirement from the ethics committee, the author(s) must provide an official statement to this effect by the ethics committee. The ethics document(s) required for manuscript types and the methods of uploading documents are described as follows:

imaging, clinical laboratory diagnostics, surgery, obstetrics and gynecology, ophthalmology, otorhinolaryngology, oncology, sports medicine, anesthesiology, and emergency medicine.

BPG follows the Code of Conduct and Best Practice Guidelines for Journal Editors and Publishers developed by the COPE, implements the policy of single-blind peer review and online open access publishing for all journals, and releases the manuscript-related documents of peer-review report, authors' answering reviewers, institutional ethics approval document(s), and CrossCheck detection report along with the manuscript upon publication.

Many journals published by the BPG are indexed in Science Citation Index Expanded (Web of Science), Current Contents/Clinical Medicine, Journal Citation Reports, Index Medicus, MEDLINE, PubMed, PubMed Central, and Scopus.

All BPG journals process manuscripts using the self-developed F6Publishing system, which is a modern publishing system that integrates the functions of online peer review, manuscript production, manuscript release, and management of highly influential experts, editorial board members, invited manuscripts, publishing fee, and production fee.
